

§ 114.20

that the action provides for the reasonable needs of navigation after full consideration of the effect of the proposed action on the human environment. The Coast Guard is not responsible for any other permits that the applicant may need from other federal, state, or local agencies and issuance of a bridge permit does not affect flood control projects or other governmental programs.

§ 114.20 Departure from permit plans.

(a) If the final inspection shows a minor departure from the authorized plans which does not materially affect navigation, the permittee will be required to furnish as-built plans showing the work as actually constructed but no further action will be taken by the Coast Guard.

(b) It is not the practice of the Coast Guard to issue letters certifying that completed work conforms to that which was authorized. That question is a matter of fact to be determined in case of controversy by the usual rules of court procedure.

§ 114.25 Work constructed without prior authority.

The Commandant or District Commander will approve plans and issue permits authorizing bridges across navigable waters, in cases where the application therefor is submitted after the commencement or completion of the bridges subject to the following rules: Approval will be limited to those cases where the necessary primary authority, State or Federal as the case may be, validly existed, when the work was innocently constructed, and where the work will not unreasonably interfere with navigation. Upon issuance of the permit, applicant will be informed that the law contemplates prior approval and that in the future plans must be submitted in ample time for their consideration by the Commandant or Dis-

§ 114.30 Revocation.

Permits may be revoked by the issuing official for failure on the part of the permittee to comply with any of the conditions therein, or where the structures or other work constitute an unreasonable obstruction to navigation or to operations of the United States in the interest of navigation or flood control.

§ 114.40 Violations of law.

The Coast Guard has the authority and responsibility for enforcement of the applicable provisions of law for the protection and preservation of navigable waters. It is the policy of the Coast Guard to secure compliance with these provisions of law short of legal proceedings. As a general principle, no action is taken when the violation is minor, unintentional, or accidental and the party responsible corrects the violation. It is the policy of the Coast Guard to implement civil or criminal proceedings in all other circumstances. These proceedings are in subpart 1.07 of Part 1 of this chapter.

§ 114.45 Applications, extensions of time.

Extensions of time to commence or complete construction of a bridge or remove a bridge that has been replaced as an element of a permitted bridge project must be submitted to, and received by the District Commander at least 30 days before the existing permit expires to allow the permit to remain in effect until the final agency action is taken.
